Advisor Advanced Pro App

Control and monitoring app for Advisor Advanced intrusion panels and UltraSync-empowered video recorders

Control your security system from your mobile device.

The Advisor Advanced Pro app offers the convenience and the security of accessing the Advisor Advanced security system on your phone.

The end-users and supervisors can perform routine tasks like arming and disarming the system and administrative tasks like adding or removing users and assigning cards to new users.

For more information about the Advisor Advanced Pro app, you can visit the app landing page here and download our marketing brochure! https://firesecurityproducts.com/en/page/advisor-advanced-pro-app
